Dear Mr. Delk:

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2014-372-T and will be posted on our website under this Docket.

Please let me know if you should require any additional information.

Sincerely,

Hope H. Adams
Administrative Coordinator
Public Service Commission of South Carolina

Subject: Uber

Uber has turned into an important transportation option nationally and in the Charleston area. As a business owner in the tourism industry, our guests rely on safe and cost effective transportation between downtown and our tour. Uber is the preferred method for guest transportation as traditional taxi service is an exorbitant expense.

It is imperative that your staff do no harm to the new transportation infrastructure and find a way to better integrate Uber into the SC transportation industry.

Respectfully,

Craig Delk

Subject: Please Keep Uber in SC

To whom it may concern:

I am SC born and raised (in Greenville) - now living in Nashville, TN; and I find it quite unbelievable you would mandate that Uber cease it's operations. Having lived in Greenville until 2012, I know first hand how frustrating the taxi service is. In my opinion, these "cease and desist" orders demonstrate sheer negligence and a general lack of awareness on the part of these "public service officers," where matters of public service are concerned.

Please reconsider, for the sake of your residents' and patrons' general quality of life and convenience.

Another significant point of general community welfare: having Uber helps to keep more drunk drivers off the roads. It is a very affordable, very convenient way to secure transportation, while having the option of splitting fare easily and seamlessly with friends; additionally, the UI/UX of the app is flawless, making it not only user friendly but also, almost "fun and trendy" to use. The usability solves the logistical, financial, and social concerns for those community members, young and old, seeking to patronize the now restaurant and bar SATURATED (thanks to city and county governments) downtown Greenville.

Uber is a step forward, toward a more technologically relevant, socially and economically integrated, and greener community for South Carolina. I urge you to reconsider, as someone who loves her hometown of Greenville, SC, and uses Uber regularly in Nashville, TN.

I was home in Greenville a few months ago and used Uber; had a wonderful experience, as I expected. I hope others will be able to continue enjoying the real public service that Uber provides while patronizing all the wonderful restaurants of SC, keeping the roads safer and the air cleaner!

Sincerely,

Emily Ranieri

Subject: Uber

To Whom It May Concern,

South Carolina needs Uber. With my many experiences riding in an Uber vehicle, every single time has been more pleasant than a taxi ride. The cars are nicer and cleaner. The drivers are also a huge step up from any taxi I have ever taken. Last but not least, the Uber app makes everything more convenient. I don't have to sit outside in the cold looking for a taxi that may or may not drive by.

Bring Uber back or whoever your elected official is will not be getting my vote the next go around.

Thanks,

John Barnes

Subject: LET UBER RING!

For a state that prides itself on the free market ideologies that have made this country the greatest on earth, I have a hard time understanding why South Carolina representatives stand with the taxi lobby.

Surely, it's not the constituents who are overwhelmingly saying no to this wonderfully cheap, convenient service.

Stop quashing progress!

Adams, Hope

Reinstate Uber immediately please. This attack on the free market is unacceptable. My wife and I use Uber all the time in Greenville and it is safe and inexpensive. Don't give in to the taxi lobby's fear mongering.
